OBJECTIVE:

As a web developer with around two years of experience, I have developed a strong foundation in designing and creating dynamic and user-friendly websites. Through my hands-on experience and continuous learning, I have gained proficiency in various programming languages, frameworks, and tools commonly used in the industry.

ROLES AND RESPONSIBILITIES:

- Working closely with other members of the development team through the full systems lifecycle including requirements capture, design.
- Creating tasks estimates for development of approved features for development.
- Worked on multiple projects, **front-end** using HTML/CSS, JavaScript, and Bootstrap
- Creating **UX Design** of Websites, Web Applications and Mobile Apps by using Adobe Photoshop, Adobe Xd and Figma.
- Experience on working **Digital Marketing** like Social Media Promotions (FB, Instagram, YouTube, LinkedIn).
- Experience in **Graphic designing** as doing social media poster, cover page, Business card, Boucher and video editing and worked with business development team to grown up the organization.

EXPERIENCE:

12/2021 - Present   **UI & UX Designer**
Rubix Technologies Tiruchirapalli.

- Working on E-commerce Web and mobile application UX For Both Business to Business and Business to Customers.
- Produce high-quality UX designs using wireframes, flow diagram, graphic and visual designs, sitemaps, prototype, and storyboards.
- Collaborate with the Business development analyst and internal designers to make sure the tailor-made content is being created and delivered to the digital users.
- Produce high-quality UX designs using wireframes, flow diagram, graphic and visual designs, sitemaps, prototype, and storyboards.

12/2021 – Present   **ASSOCIATE SOFTWARE ENGINEER**
Rubix Technologies Tiruchirapalli.

- Collaborated with project management, digital marketing and creating responsive and mobile ready website using established techniques in HTML, CSS, JS and Bootstrap.
- Understand and developed the requirements of multiple devices including mobile, desktop, and tablet.
- Managing the CSS responsive frameworks including Bootstrap and Semantic user interface.
- Work within Agile workflow to Organize a task and collaborate with team members (Jira).
